DONNE11Y

Artist Name: Donne11y

Genre: Tech Trance / Trance / Classic Trance

Biography:

Donne11y (real name Adam Donnelly), is the freshest upcoming talent to grace the UK Trance scene. His willingness to learn, entertain & excite are some of the qualities that would often draw the attention from many who've seen him break into the realm as a fresh & exciting upcoming talent.

Adams influence in dance music was originated from the "Kevin & Perry Movie" soundtrack and the enjoyment that his mother had for dance music. His soundtrack growing up, has always been listening to various genres of dance music. Also, through this influence, Adam was a keen breakdancer until he developed an interest in performing within the dance music industry.

Adams break, came via Anarchy – Revolution of Dance Radio in 2020. As the clubbing world had stopped due to the pandemic, Adam was part of the online radio movement to keep Trance fans entertained and helped lift their spirits during a difficult time.

Artist EPK

This then created the opportunity for him to perform live, after the lifting of restrictions in late 2021. His first ever gig was at Anarchy which was held in Stoke-on-Trent (UK). Since then, he has played at various events across the United Kingdom.

Adam took over the management & running of Anarchy from April 2022 and has since built up a credible portfolio of events. Some of which have been stand alone events as well as a support brand also. Adam has worked incredibly hard to build the Anarchy brand as well as his own brand as a credible artist.

Adam has also been developing his production skills, working alongside established artists and other upcoming artists. His mashups have been received with great praise from the original artists and his following. His production has featured during sets by artists who've played at the Luminosity Beach Festival in the Netherlands and by artists based in the UK.

Adam's energy as a performer is often described as engaging & exciting. His ability to take his listeners on a musical & diverse journey through the world of Trance music, is often spoke about highly by those who've played alongside him and/or seen him play at credible events across the UK.

Since August 2023, Adam became the Label Manager for Ultratech White and has become an integral part of the Ultratech Dance Music UK family. He now oversees new artists signed to the trance label and helps in providing such signed artists an opportunity into the music industry.

With many the skills and opportunities that Adam has at his disposal, over time he will become more of a valuable asset to his chosen industry. A young individual with the willingness to learn and develop, the presence to excite & entertain and the ever-growing knowledge to reach his full potential to become a major name within the UK Trance industry.

The future of Trance DJs is in safe hands.
